ACTION PLAN
2019-2020

THE WODONGA WE
ALL WANT TO LIVE IN
Wodonga Council acknowledges the traditional owners of this land on which we stand and pay our respects to their Elders past, present and future, for they hold the memories, the tradition and the culture of all Aboriginal and Torres Strait Islander People.
The Local Government Act stipulates the council must prepare a Council Plan which will include the strategic objectives of the council and strategies for achieving those objectives for the next four years as well as indicators for monitoring the achievement of the objectives.

The Council Plan is supported by the Strategic Resource Plan, which includes the financial and non-financial resources required to achieve the Council Plan, and an annual action plan which outlines the key activities and actions to be undertaken each year.

The Municipal Public Health and Wellbeing Plan is integrated into the Council Plan.

OUR PLANNING
In developing the Council Plan, the community’s vision for the city, their priorities and needs were all considered through an extensive consultation process.

Each year, the council will develop a plan describing the actions the council will undertake to meet the objectives of the Council Plan.

Throughout the life of the plan, social, economic and environmental factors will also influence those priorities and the action plan.

The council will continue to seek and receive the views of community members on issues that directly affect them or in which they may have a significant interest, working with identified groups of people, whether it is due to their location, interests, affiliation or identity.

Regular consultations and surveys will allow the council to understand the changing needs of the community.

This community input will inform the council’s service delivery in meeting the aspirations for our city.

The council uses community engagement to:
- Strengthen relationships between the council and the community by allowing for clear and honest communication, improving the understanding of each other’s opinions, concerns, restrictions and strengths;
- Help encourage ownership within the community over strategies, projects and decisions, to support long-term sustainability of projects and initiatives;
- Develop an understanding of the make-up, characteristics, needs and priorities of the community; and,
- Search for solutions, information and opportunities that contribute to the development of strategies and policies.

Community engagement is not the sole determinant in a decision-making process. There are many other stakeholders and factors that need to be taken into consideration. Some of these are shown in the chart below.

The council uses community engagement tools that provide avenues for involvement that are inclusive, productive and cost-effective.
HEALTHY, SAFE AND RESILIENT COMMUNITY

Improve the health and social outcomes for all people in Wodonga to create a healthy, safe, equitable and inclusive community.

Strategy 1
