

Supported by Healthy Together Wodonga and Gateway Health

Community gardens provide our local communities with many opportunities to increase access to fresh, healthy, fruit and vegetables. Healthy Together Wodonga in partnership with Gateway Health is working to strengthen community gardens in our region by supporting a network where people who are interested in community gardens can get together.

The HMCGC meets on a bi-monthly basis, each time at a different community garden. The group network and share their ideas and knowledge - all with a view to supporting a vibrant community garden culture in our region.

We welcome new members to our group - please contact Brydie Foran at Gateway Health if you would like to know more or be added to the mailing list:
