Wheelie bin use... 5 handy tips

1. Timing
Put your bin out before 6am and please do not exceed the maximum weight limit for your bin.

2. Don’t overfill!
This bin needs to be able to be lifted by a clean-living service employee. This bin is not to be used to store food;

3. Don’t put too close
Overhanging, commercial, and general waste material can create a potential hazard;

4. Bin Placement
Ensure your bin is placed at least one metre away from things like cars, fences, and other obstructions. Bins need space to work;

5. No Stuff in the Wheels
Make sure your bin is empty of debris, like leaves or sticks, that could damage the wheels;

For more information about waste and recycling, please contact your local council or call the number below to connect to the Cleanaway office in your area.

6:00am

Cleanaway processes waste bins by providing a service to recycling in Australia and the bins need to be placed by 6am.

Your wheelie bins are:

- **Recycling bin** with a yellow lid, painted yellow.
- **Materials Bin** with a red or black lid, painted red.
- **Green Waste Bin** with a green lid, painted green.

Other options

As well as using your wheelie bins, there are other ways to manage waste in a responsible manner. These include:

- **Transfer Station**
- **Waste Transfer Stations**
- **Composting stations**
- **Davinci bins**
- **Green waste bags**
- **Food waste bags**
